Education

Bachelor of Science, Computer Science (in progress)

Turlock, CA

Minor in Biology

Expected Graduation May 26

California State University, Stanislaus

Associate of Arts, General Studies

Fall 2023

Modesto Junior College

Modesto, CA

Technical Skills

Languages: R, Python, C++, JavaScript, SQL

Frameworks/Tools: Express.js, Node.js, React.js, Bootstrap, Figma, Git, Microsoft Office, REST APIs

Work Experience

Bioinformatics Research Intern

Turlock, CA

Genome Assembly and Annotation

September 2025 to Present

- Analyzed genomic sequence data using computational pipelines to identify gene functions
- Researched annotation pipelines and comparative genomics methods to support analysis workflows

STEM CRU Research Intern

Turlock, CA

Machine Learning Intern

February 2025 to Present

- Built a CNN to classify musical chords from audio using chromagram features, achieving 98% validation accuracy
- Preprocessed audio data using GuitarSet and Librosa to extract frame-aligned chroma features for model training

Bay Valley Tech, Code Academy

Modesto, CA

Web Development Intern

February 2024 to August 2024

- Collaborated in a team of four to develop a full-stack communication application using Next.js, PostgreSQL and Prisma
- Designed and implemented key frontend components, created half of the API to handle necessary functions (servers, channels, friends, direct messages), and improved communications as well as functionality between components

Software Projects

ModMatch | Car Modification Recommendation System

December 2025 – January 2026

Next.js, Node.js, PostgreSQL, Prisma

- Developed a system that recommends legal and compatible car modifications based on user vehicle specifications.
- Designed a relational database and backend logic to enforce compatibility and regulatory constraints
- Built a responsive interface allowing users to input vehicle details and explore modification options

Hotel Booking App

November 2025

MERN Stack Application

- Worked in an application that used Mongo DB, Express, React, and Node to simulate a real hotel booking application with user authentication, date pickers, hotel search, and dynamic pricing logic

Extracurricular Activities

Hackathon Project | AI Mental Health Chatbot

April 2025

HTML, CSS, JavaScript, Node.js, Express.js

- Worked in a team of four to create a mental health chatbot during a 24-hour hackathon using Google Gemini's API
- Handled frontend/backend integration and emotion-based feedback system

Awards and Scholarships

NSF S-STEM Scholarship

Fall 2025

Scholar

- The S-STEM scholarship program enables academically talented, low-income students to pursue successful careers in promising STEM fields

California Seal of Biliteracy in Spanish

May 2021

Manteca High School

- The seal of biliteracy is an award given by a school in recognition of students who have studied and attained proficiency in two or more languages by high school graduation
